SAFETY BRIEFING FOR RETRIEVING TRIALS

Trials are held over undulating and hazardous terrain so it is suggested that sturdy footwear and clothing be worn to reduce the possibility of scratches or injury. As with all outdoor activities it is suggested competitors and spectators have appropriate clothing for the weather and take due care when moving around the trial site.

The environment, animals and wildlife can be inhospitable. Be alert and avoid any inhospitable animals and wildlife where possible.

Trials are located near water. If you cannot swim take care around the water. If you have children in your custody it is your responsibility to ensure the safety and welfare of the children at all times.

Guns are used at trial sites and although using blanks all guns should be treated as if using live ammunition and appropriate gun safety should be used at all times. Trial Management will emphasize gun safety with competitors during the conduct of the trial.

Equipment used in trials is mechanical and if used incorrectly could cause injury. If you are unsure regarding the operation of the equipment familiarise yourself on how the equipment works before use.

We are privileged to be invited on to properties to run our trials and must respect the property owners' personal property and should therefore:

- Remove all rubbish from the property
- Do Not enter any dwelling on the property
- Do not touch any farm equipment on the property
- Ensure dogs are kept under control at all times especially around any livestock
- All gates must be left as they are found when entering paddocks

A first aid officer is available on the trial site and if first aid is required please contact the Trial Manager.

WORKING GUNDOG CLUB INC. COVID SAFE GUIDE FOR JUDGES & SAFETY MARSHALS

*Coronavirus is a significant threat for our retrieving community.
During this period our aim is to minimise any risks of infection.
Thank you for helping our club keep our patrons safe and well.*

Shared use of the gun is considered to pose possible risk of Covid transfer.

At trial sites the *Judge* needs to establish a **Sanitation Station** in clear view of (but not closer than 4 metres from) the **Control Point**. The *Station* can be a club supplied table or similar flat surface e.g. a truck tailgate. The *Station* will hold club supplied sanitiser (liquid and/or wipes), disposable gloves, a box of tissues and a garbage bag and/or bin nearby.

The gun, with a supply of shells, must remain on or at the *Station* whenever it is not in use and should only be handled by competitors in succession. Judges should not appoint a Gun Steward. Instead, each competitor will be responsible for sanitising, loading and handling the gun under the supervision of a club appointed *Safety Marshal*.

The role of the **Safety Marshal** is to call, cue and supervise competitors in compliance with the club's *Covid Safe and Run Procedures*. If a competitor is unable to handle the gun the *Safety Marshal* may substitute for firing wearing gloves. If the *Safety Marshal* needs to be relieved, the *Safety Marshal* is responsible for ensuring their replacement is familiar with safety procedures.

Game Stewards should be appointed and coordinated by the *Judge*. All *Stewards* handling throwers, birds or common equipment **MUST** be directed to wear gloves (available from the *Club Secretary* or the *Sanitation Station*). When duties end *Stewards* must dispose of their gloves safely and wash or sanitise their hands thoroughly.

Judges need to maintain physical distancing (minimum 1.5 metres) from *Competitors* and *Stewards* at all times. **Runs** should be explained to groups of 5 competitors or less by the *Judge*. Whenever multiple competitors are assembled the *Judge* is responsible for ensuring that physical distancing is observed. The *Judge* is required to announce the results of the trial to competitors at the trial site and distribute ribbons and prizes (available beforehand from the *Club Secretary*) to the placegetters on behalf of the club.

Run Procedures

1. 'Next Competitor' is called by the *Safety Marshal*
2. *Handler* then proceeds to the *Sanitation Station* with dog on lead
3. Vetting (entire batches at 1st run only) is performed by the dog's handler in the presence of the *Safety Marshal* who confirms clearance with the *Judge*
4. *Handler* then sanitises hands, the gun and dons other Covid protection if required
5. On instruction by the *Judge*, *Handler* takes possession of gun, shells and proceeds to the Control Point with dog on lead
6. At the Control Point, *Handler* steadies the dog, removes lead and places it on the ground
7. Run is completed as directed by the *Judge*
8. Retrieved game is placed where directed for inspection and dog is placed back on lead
9. Following release by the *Judge*, the *Handler* places game in a storage bin, returns the gun and spent shells to the *Sanitation Station*, then vacates the area.
